14 hurt in bus - truck crash

A portion of the truck hood juts through the broken windshield of the school bus involved in the accident Friday. 68 year old Edward Rosser was seated at the wheel of the bus when the accident occurred. He was not seriously injured.

A tragedy was avoided early Friday morning when a dump truck side-swiped one school bus and slammed into a second one, pushing it 25 metres before coming to rest. Fourteen people, including 12 passengers and the driver of one of the buses and the driver of the truck were injured in the mishap.

The accident occurred at approximately 8 a.m. when some roads in the county were shrouded in fog. The buses had stopped on County Road One, just west of the Drag River bridge. The two buses were facing each other, occupying opposite lanes of traffic.

According to the police report, the warning lights on the two school buses were activated while the drivers waited for students to change buses.

The truck, driven by Earl Hellman, 31, of Emsdale, was travelling east. At that point the road follows a downhill grade leading to the bridge.

The dump truck, carrying a load of asphalt for a road construction project underway in the area, approached the eastbound bus from the rear. The driver was apparently unable to stop in time when he saw the rear of the bus. Pulling out into the westbound lane, he swerved around the bus and attempted to swerve back into the eastbound lane to avoid the hitting of the second bus.

As the driver cut back, the right front of the truck caught the left front of the eastbound bus, ripping the stop sign from the side of the vehicle and damaging the left front fender.

The left front of the truck, also slammed into the front of westbound bus. This bus was pushed back 25 metres toward the embankment leading down to the riverbed.

A portion of the truck's fender pierced the front windshield of the bus and came within inches of seriously injuring driver Edward Rosser, 68, of R. R. 2 Haliburton. He sustained minor injuries.

The children on his bus were less fortunate, however. Twelve of the 28 on board were hurt. The most seriously injured was Stacey Vick, 8, of Gelert, who has been taken to the Hospital for Sick Children in Toronto for treatment of undisclosed injuries. Taken to Minden and Haliburton Red Cross Hospitals for treatment were: Scott Bacon, 6; Andrew Bacon, 8; Dawn Rowan, 8; Janet Brown, 14; Karen Shaw, 11; Dawn Cannon, 6, all of R. R. 1 Minden; Jean Neville, 47, of Haliburton; Michelle Carpenter, 6, of Lochlin; Darnell Francis, 11, of R. R. 1, Minden; and Tracy Hart-

wick, 6, of R. R. 1, Minden.

Driver of the first bus, Helen Powell, 39, of R. R. 1 Kinmount, and her twelve passengers were uninjured. The truck driver sustained minor injuries.

Damage to the first bus was estimated at \$2,000, damage to the second bus was set at \$8,000 while the truck sustained \$5,000 damage.

The driver of the truck has been charged with careless driving.

According to the police, the transfer point for students on these two bus routes has been changed since the Friday mishap. Instead of stopping on County Road One to make the change, the buses meet on a nearby township road, Scotts Dam Road, for this stop.

The investigating officer was Constable Bob Pearson.

Bell responds to township

Bell Canada may have special services available for some people, but they don't seem to go to great pains to let individuals know these services are there. That was the feeling of several members of Anson, Hindon and Minden municipal council after receiving a letter from Bell Canada. The letter was read at the September 29 meeting of the council.

The municipality early last month, had added its voice to a chorus of protests over the reduced size of print in the latest telephone directory. The letter from the phone company explains their reasons for making the change.

They pointed out: that there were cost savings in having more names per page in the directory; that a survey had been carried out and it was determined that individuals would have little trouble using the new smaller print directories; that similar size print directories had been introduced in Montreal and Toronto with little protest; and senior citizens or those with a sight handicap could

apply to Bell Canada for exemption from directory assistance charges. The letter said that application forms for this exemption are available from the Bell office.

It was this last point which attracted the attention of the councillors. They pointed out that while the opportunity may exist for seniors and others to apply for an exemption from the directory assistance charge, no one knew about it and application forms were not readily available locally, since there is no Bell business office here. Deputy Reeve Ed Pergolas suggested the council contact Bell and ask them to supply the municipality with a number of these application forms so they could be distributed from a convenient location, the municipal office.

The councillors also suggested that seniors in the area be informed that the exemption is available, but that they have to apply for it to qualify.

The municipal council said it would continue to pursue the matter.

Mini-fair should move: Pergolas

Deputy Reeve Ed Pergolas would like to see the Mini-fair building adjacent to the municipal offices, removed. "I'd like to see the thing the heck out of there," he commented at the September 29 meeting of Anson, Hindon and Minden municipal council. "We

need the parking space badly."

The matter was raised after councillor Gary Kenney suggested at an earlier meeting that the structure be winterized. He said at that time there was a possibility of the Haliburton County Farmers' Assoc-

iation being interested in making use of the structure or part of it, next year for their farmers' market.

Pergolas asked for clarification on the future of the building Thursday evening. "What if the farmers aren't interested in the building?" he asked.

Councillor Kenney replied that the municipality had two options, take the building down or leave it where it is presently located. He pointed out that the structure is portable and could be easily relocated. He

An OPP officer obtains details of the accident from the driver of the dump truck, Earl Hellman following an accident on County Road One. Twelve passengers of the school bus plus the truck and bus drivers were hurt in the mishap.

Speed limit request still outstanding

An inquiry from Lutterworth Township regarding speed limits and boating restrictions on the Gull River north of Gull Lake has been received by the Anson, Hindon and Minden municipal council. The letter asked if the township had received notification of any limits being placed on the waterway. According to the Minden council September 29, none have.

The Lutterworth letter noted that water skiing restrictions have been placed on the lower portion of the Gull River from Moore Lake to Norland. Over a year ago, however, both municipalities petitioned the federal government to reduce the speed limit on the entire Gull River to 9 k.m. per hour. The purpose of the restriction was to help reduce the erosion caused by fast power boats on the river.

Municipal clerk-treasurer Elinor Burke told the

meeting that she had not received any response since the two municipalities had submitted their first request. Approval from both senior levels of government is needed to create a speed restriction.

Reeve Lyle McKnight said he had brought the matter to the attention of the Ministry of Natural Resources and officials there said they would look into it. He also told the meeting that residents and cottagers on Gull Lake have indicated to the municipality that they would likely not use their boats to reach Minden since the trip would take too long if a speed limit was imposed.

A petition circulated two years ago among property owners on the shores of the Gull River in both municipalities prompted the townships to request the speed restrictions.

Parking more important

(from page 1)

explained that the idea of the farmers using the building next year drew a favourable response from the president of the organization, Ernest Hills. However, Kenney told the meeting that Hills wanted the executive of the group to consider the matter before a decision was made.

Pergolas noted that the council had intended to reduce the size of the playground to make more room for parking, but then the mini-fair building was moved in instead. He pointed out that with renovations to the ground floor of the municipal office

building, more parking would be needed soon.

Councillor Dave Stevens suggested that the facility could be relocated to the Welch building property on Minden's Main Street.

Pergolas noted that the farmers would make use of the building for only half a day a week for only two months of the year. He pointed out however, that the structure takes up parking spaces all year round.

Kenney said the council could be criticized if it moved the structure closer to Main Street, on the Welch property. However he also noted that council

agreed to spend money on "creating a possibility". He suggested that the idea has not been fairly tested during the past year.

Discussion of the matter

was adjourned to the next meeting of Anson, Hindon and Minden council.

Agreement reached

The municipality of Anson, Hindon and Minden has agreed to enter into an agreement with the operator of a rest home in Snowdon Township for the provision of a housing subsidy for residents in the home who come from this municipality. The resolution, which empowers the reeve and clerk to sign the agreement with Willis McNeilly, Community Retirement Homes Incorporated, was endorsed at the September 29 meeting.

The endorsement carried a number of provisos including that the Ontario Municipal Board approval for rezoning of the property be obtained that Snowdon Township council has signed a similar agreement and that all townships providing support for residents in the home be charged the same daily rate.

Efforts to reach an agreement between the operator and three municipalities, Anson, Hindon and Minden, Snowdon and Dysart et al. have been underway for a number of months. A consensus has been stymied as councillors debated who would be responsible for enforcing the various regulations governing the operation of the home and other matters contained in the agreement. If approved the provincial government will share in the support cost of the residents of the home.

Director resigns

The director of Education for Haliburton County, Doug Hodgson, has tendered his resignation. The board accepted the letter presented at the regular meeting September 27.

The resignation is effective June 30, 1984.

In an interview Tuesday, Mr. Hodgson revealed that he had been thinking about retiring for a number of years. "I have been the director of education for 15 years and chief administrative officer of a board for the past 25 years," he commented. The director said he felt a change was needed.

Mr. Hodgson said he felt he had made a contribution to the education system in the county and felt that by stepping aside he would be making room for new ideas and changes.

He pointed out that he began as a teacher locally in 1946. "Thirty-seven years is a long time," he said. He will be 57 years of age next June.

Referring to the recent review of his position, being carried out by a joint board, teacher ratepayer committee, he said "I felt it was a good idea. The study will help flesh out the post and provide a complete job description." Mr. Hodgson noted that while he has worked closely with the boards over the years, the trustees were often unaware of what his position entailed. "This study should provide the trustees with guidelines to use in selecting a replacement."

Howe will remember county transition

"The highlight of my term in office has been the fact that Haliburton was elevated to full county status," Warden Bill Howe told the audience at the annual Warden's banquet Saturday evening. The gathering was held in the community centre in Cardiff.

During my term in office I have served as the last warden of the Provisional County of Haliburton and the first warden of the full county," he told the audience. "I have also been honoured by being the last chairman of the Improvement District of Bicroft and the first elected Reeve of the new township of Bicroft."

Speaking to the gathering of politicians, friends and municipal and county staff members, Howe paid tribute to Lutterworth Reeve Ron Gambell and Dysart et al Reeve Murray Fearrey, who, he said, laid the ground work for the change from a provisional to a full county during their terms as warden. The warden also thanked MPP John Eakins for his support leading up to and during the transition.

4 bases

Howe told the gathering that the county had four bases on which to build its future.

"Mining, at the moment, is an unknown quantity,"

the warden said. "There is potential for mining activity, but most of it lies in the eastern part of the county."

He described the timber industry as a "Continuing industry that cannot be looted." He said the timber industry needs to be nurtured if it is to grow.

"This county should be the envy of the province and the country," Howe said. "It has a great deal of tourism potential." He told the audience that tourism is one of the most important forms of growth for the county and every effort should be made to promote the opportunities which exist here. He suggested that more development is needed on Crown land as well as patent land. The warden also proposed that an Official Plan for the entire county should be created to get maximum value out of the area.

The fourth base for the county is the people, Howe commented. It is people who can make things happen, "who get the ball rolling." Using his own area as an example, Howe cited the growth in the Cardiff townsite, including the building of a large new food store as an example of what can be accomplished.

"I enjoyed my term as Warden," Howe told the audience. "You are good people. Keep up the good

Past county wardens were honoured Saturday night in Cardiff. The present warden, Bill Howe, presented each of the wardens with a Haliburton County trade dollar to mark the occasion. Howe presents the coin to former Stanhope Reeve Jim Harrison, far right, as other wardens, to the left, look on - Reg. Booth, Sinc Nesbitt, Charles Brandon, Art Tompsett, Holly Sisson, Art Lock and Fred Brooks.

work."

Longer term

Victoria Haliburton MPP John Eakins paid tribute to the leadership of Bill Howe as the county's Warden.

The MPP suggested that perhaps a year was too short a time for a Warden to carry out any plans he may have for the county. He suggested that since the term of municipal office had been stretched to three years at

the last election, that the province may feel the Warden's term of office should be longer. "I know there is historical reference for the one year term," Eakins commented, "but maybe we should look at the options available to us."

Victoria - Haliburton MP Bill Scott also paid tribute to the Warden, calling him an ambassador for the county.

A number of past wardens

were in attendance at the meeting. They were introduced by Lutterworth Reeve Ron Gambell and presented with a Haliburton County trade dollar as a memento of the banquet. In attendance were Fred Brooks, the former reeve of Anson, Hindon and Minden who served as Warden in 1956. He had travelled from British Columbia to take part. Others in attendance included: Art Lock (1959),

Holly Sisson (1961), Art Tompsett (1964), Charles Brandon (1969), Sinc Nesbitt (1970), Reg Booth and Jim Harrison.

County Warden Bill Howe introduces his wife during the Warden's banquet in Cardiff.

Safety first

The decision to relocate the meeting place for the busses involved in an accident Friday is a wise one. However, the accident raised the question of the advisability of carrying out such a transfer in any location.

Under the present system, when two busses with passengers to exchange meet, they stop in their respective lanes with their warning lights flashing. This was the situation Friday when a truck, unable to stop in time, sideswiped one bus and ran headlong into the second.

The sideroad which has been chosen for the new location will certainly have less traffic than County Road One. The location of the exchange stop will also mean other traffic will not be travelling at a high rate of speed.

Would it not be safer, however, to have the busses stop, one behind the other and have the students walk along the shoulder of the road if they must change busses. With both sets of warning lights activated traffic in both directions will still be obligated to stop. However, if a driver ignores the warning lights or does not see them in time to stop, he would not be caught in a situation similar to the one which existed Friday in which the truck driver attempted to miss both busses.

These two particular bus routes meet so the busses are travelling in opposite directions, one reason for meeting nose-to-nose when making the exchange. We agree that turning one bus around may pose some danger, but we feel the same-side changing should be investigated as a possible safer alternative to present methods. We certainly feel it offers greater security and protection for the students while still providing the inattentive driver with an "escape route" that does not endanger any lives.

A long recess

- by John Eakins, M.P.P. -

The Legislature will reconvene on October 11, and no doubt many citizens will feel it has been a long holiday period for members of the Legislature. I have spent the summer being available at the constituency office and I can assure you the needs of constituents carry on regardless of the time of the year.

For the past few weeks I have been attending the Ombudsman Committee hearings at Queen's Park, a committee of which I am a member. While many items of the Ombudsman's work have been dealt with, the highlight was the concluding session on Friday, dealing with the longstanding North Pickering Project inquiries. This, as you know, has been on-going for a number of years, and hopefully it will soon reach a conclusion.

I have spent some time chairing our Party's Rural Task Force meetings across the province, and this has taken a great deal of time. The meetings are turning out to be very fruitful, and I shall be reporting in greater detail later. Just last Wednesday I was in Kirkland Lake and I came away very impressed with their community.

Last week I had the pleasure of officially opening, along with Reeve Lyle McKnight and Warden Bill Howe of Haliburton, the Gull River Training

Centre at Minden. This is a very unique project and again I hope to talk about this project at more length in a couple of weeks time.

With the reconvening of the Legislature, I would like to invite citizens to visit Queen's Park and tour this beautiful building and to see the Assembly in action. If you would like further information, please contact my constituency office.

It should be brought to the public's attention that a very serious error has been made by the Ministry of Health in their publication, "Is the Water Safe to Drink".

In their publication, the

Ministry states that the amount of calcium hypochlorite that should be used to disinfect a contaminated well is 2.4 kg. for every 1,000 litres of water. The Ministry of the Environment has confirmed to us that this level is some five times too high and the correct rate should be .5 kg. per 1,000 litres of water.

The use of the higher level of hypochlorite could lead to corrosion of pipes. In some instances, wells could run dry before the chemical could be eliminated.

The Ministry of Health

October 12 - U.C.W. Rally at Lochlin - 9:30 a.m. registration.

letters

Editor:

Re. your article "Performance Prompts letter from Council" in your August 31st Times:

I am pleased that Minden Council won't take action to stop strippers from performing in our village. Regards to Gary Kenney that Council has no authority to interfere with a private enterprise and by no means a by-law regulating this type of entertainment, as Councilor Kenney said "Let their conscience dictate their actions".

Never having attended one of these performances and having raised four fine children I still see no harm in having this entertainment periodically - perhaps some day I may even attend."

A letter to Mr. Willis does not represent the community at heart, just 3 Council members and I feel this is an unnecessary action and a waste of council's time. How about some action or effort in the areas of maintaining controls on our water levels?

Re: Wanetta Kimble's letter to your newspaper hopefully does not represent the community of Minden. I am a property owner in this area and feel thoroughly disgusted to realize there are people with warped, narrow minds and opinionated enough who did not attend the 'Special' show at the Rockcliffe Hotel or maybe they did in disguise, feel that this type of entertainment would corrupt this fine community.

Perhaps this fair lady should move to another prayer area, where these performances will not corrupt her mind, but leave us here to choose and decide whether we wish to visit these hotels in our town.

T. Carroll,
 Scarborough, Ont.

Editor:

Just noted the signs near IGA banning bikes and snowmachines on the sidewalks. Also found there is a by-law regarding this.

With our new sidewalks and a good many seniors and others walking on these, bikers might be considerate and use the roads. It would be too bad if someone was startled and had a bad fall.

Jeanne Sears,
 Minden.

Acid rain monitoring

The weather recording station operated by Minden resident Phil Graham has been chosen as one of 85 sites across North America for a special test on the source of acid rain.

According to the local weather watcher, a special monitoring device has been installed here which will help determine the source of the acidic precipitation which is killing area lakes and damaging forests. The program is a joint U.S. Canada project.

Under the program, a special gas (perfluorocarbon) will be released from Dayton, Ohio and Sudbury. The monitoring stations, similar to the one installed here, will be able to detect the presence of this gas, which does not occur naturally. By comparing the readings at each of the stations, scientists hope to be able to prepare a profile of how the pollutants are distributed across the eastern portion of the continent.

It is hoped the testing will provide conclusive proof that acid causing emission can be carried across the states and provinces, international boundaries and even across continents by the winds.

The equipment, known as Captex (Cross Appalachian Tracer Experiment), should also be able to assist in pinpointing the source of acidic precipitation that is causing damage to the environment.

Phil Graham with the CAPTEX monitoring device.

Bill Scott on export development

On September 19, I had the opportunity to address the House of Commons on the subject of Bill C-110, the Export Development Act.

Don Blenkarn, our Party's critic for the Ministry of State for Finance, led our debate in the House. Thanks largely to his efforts, we were able to pass several amendments at report stage which will make the Export Development Corporation much more accountable to Parliament. In future, its borrowing capacity will be limited to ten times its paid in capital and retained earnings. We also succeeded in reducing the possible borrowing from \$20 billion to \$15 billion. They must now present their annual report and financial statements to the House for examination. A future amendment reduced the

government's right to take up loans and guarantees not appropriate to the Export Development Corporation's activities from \$20 billion to \$13 billion.

The following is the text of my speech.

Mr. W. C. Scott (Victoria - Haliburton): Mr. Speaker, I am rising late to speak in respect of the Export Development Corporation Bill, but I would like to mention briefly some experiences which I have had personally with a young, vibrant company bidding for world markets. Just last week I was invited to the first promotion of their deal abroad. This happened to be a company which is in the business of manufacturing paint. The company had sold 43,000 gallons of paint to the Barbados. Over two years ago it applied to the

federal Government for some promotional assistance, not just to the Barbados but to other countries, and to further research its product, which it was already doing with its own money. But it received no Government help whatsoever. Yet we find that of the 62 companies which received financial assistance last year from the Export Development Corporation, 3 received over half of the total funds allocated. This gives me a great deal of concern. Are we helping the right type of people, the people with initiative, the little guy? I think too many of our Government departments, not just the EDC, are looking for the giant who has made his way and is receiving today the lion's share.

I think the Minister is a pretty good fellow, Mr. Speaker. We talk about

fishing and about growing potatoes in the Maritimes. While I come from Ontario, we get along very well with the Minister, and I think he really tries. But I honestly think some of his department officials bypass some of these very dedicated entrepreneurs who want to make their own way.

I cannot be critical of the EDC alone because these problems occur with the Department of Industry also. I had a chap come to me not too long ago who wanted to manufacture stick fertilizer for plants. He is struggling along and he was lucky enough to win several contracts here in Canada which had been filled by fertilizer sticks imported from the U.S. He secured a contract from Loblaw's, IGA, National Grocers and Canadian Tire. Yet he was totally turned down by the Department. He has created 15 to 20 jobs and would have

gone to 45 or 50 jobs, but the Department ignored him. He did not have this, he did not have that. Probably he did not have the right firm present his application. This chap was finally helped by the Government of Barbados in promoting his

product abroad. It is a very viable product, so what are we doing wrong? What is the EDC doing for people such as I have described here? The Government of Barbados helped this chap

Federation of Ontario Naturalists

We've all been amazed by photographs showing frogs and toads zapping insects for lunch with one lightning-fast flash of the tongue. But while you and I may be content to marvel at this display, persistent investigation is needed to pin down the mechanics.

Frogs and toads catch flies and bugs with long sticky tongues which are then curled back into their mouths and the food gulped down. Toads have no teeth, unlike frogs, and often use their hands, as well as the backs of their eyes, to force food down their throats. These facts, and the source of the vocal repertoire, which has captured our

fancy over centuries, could be discovered by an observant naturalist. Finding out how their tongues work is a different matter. The traditional hypothesis that they operate like a crossbow when chasing food. But a rather esoteric piece of research has proven otherwise.

To find this out, researchers at the University of Michigan had to connect various muscle groups in the amphibians' throats, by hair-like wires, to machines that measured tiny changes in electrical current. Using microcomputers, a 400 frame-per-second movie camera, and a technique called synchronized

electromyography, they were able to measure voltage changes occurring when muscle fibers were stimulated by brain signals and thereby isolate the major muscle groups involved in each action of the tongue. It turns out that studies of a number of frog species revealed that their tongues all work differently.

No self-respecting naturalist would be caught dead dragging all this equipment through the woods of course. More seriously, research like this often gives me an uneasy feeling about the uses to which laboratory animals are put. As Barbara

Agnes Jamieson Gallery

There will be an election of officers for a board of directors on Wednesday, October 18, 1983 at 7:30 p.m. at the Gallery. ONLY members in good standing are eligible to vote.

For further information call The Gallery at

286-3763

from the chamber

Once again Haliburton County leads the way in the beautiful fall colour sweepstakes. As anyone who has listened to C.H.A.Y. radio recently can quickly discover our colours are more beautiful and more rapidly developing than any other county around. This means that we are ahead of Muskoka, Peterborough, Kawartha, and Simcoe County.

Every day the Inwats line rings with people asking "How will the colours be for Thanksgiving?" If things keep up the way they are going presently they should be fantastic for 'Thanks' giving weekend. As I've been driving around the county in the last week I've seen colours erupt every day.

It's still not too late to make plans to visit the Wig-A-Mog Inn on October 19 for the annual meeting of the Haliburton Highlands Chamber of Commerce. For only a tax deductible \$35.00 you can attend a full day that includes a panel discussion, seminars, lunch, banquet, table topics, and the annual meeting.

The day will get underway at 9:15 with a panel discussion moderated by Bob Stinson and "You, Haliburton County and the Future". Other panel members are Ken Langdon, owner of Blacks Hardware in Haliburton, Gary Kenney, noted Councillor for Anson, Hindon and Minden and Mike Walker, local representative from the Ministry of Tourism and Recreation. This should be an action packed panel discussion.

Following a short coffee break we will have David Blenkhorn from the school of Business and Economics at Wilfrid Laurier University and a part time consultant who will be gracing us with his presence on the topic "Quality Counts—Lessons from the Japanese". Dave's talk is sure to be full of interesting thoughts on the importance of quality in running any business today no matter

how large or small.

Following a serving of lunch there will be a showing of the tourism awareness film by Mike Walker from the Ministry of Tourism and Recreation. Following lunch we have a seminar from Derry Wilford and Lloyd Fleming of the Bank of Montreal who will deliver a commercial banking workshop which will deal with cash management and commercial lending. These two topics should be of interest to every business person in Haliburton County today.

The annual meeting, which is free to all Chamber members, is at 3:15 p.m. and will feature such exciting moments as the President's and Manager's Reports as well as the election of directors, the appointment of auditors and any new business.

At 4:30 p.m. we have table topics in Arthur's. This is a unique opportunity to meet one to one with various business equipment suppliers as well as the guest speakers from the seminars.

At 6:45 p.m. our annual banquet gets underway, following dinner our guest speaker, the world renowned marketing consultant, John Hope-Johnstone will deliver a spell binding address. Following that there will be the presentation of the Highlander of the Year award and dancing.

To get your tickets call the Chamber of Commerce at 286-1760.

To see and do

On October 8 in the arena in Wilberforce, the Municipality of Monmouth is having their Autumnfest. This day will feature a Flea Market, German foods, Oompah Band, and a special occasion permit throughout the day and evening. The evening will be from 9 p.m.

Also on October 8 the Minden Rotary Club is holding their Octoberfest at the Minden Arena from 8 p.m. Free mugs will be given to the early birds. This lively

evening will feature live entertainment and dancing for only \$4.00 per person.

Opening on October 8 the Rail's End Gallery in Haliburton Village is their contemporary pottery exhibit. More details can be found by contacting the Gallery at 457-2330.

Continuing at the Agnes Jamieson Gallery in the Minden Cultural Centre is the fascinating new show by Karl Illini. The Gallery hours are 10 a.m. to 5 p.m. for this multi-media experience.

For one of the greatest offers of a lifetime you should talk to Bob Nichol in the Haliburton liquor store for your opportunity to buy a seasons tickets to the Haliburton Huskies of the Junior C. The first three hundred people to buy a season ticket will be entered in a opportunity to win a trip for two to the Bahamas in January. The tickets are only \$30.00 for the season. As well, Bob Nichol is also offering Haliburton Kinsmen tickets for grand prizes.

Export development

(from page 5)

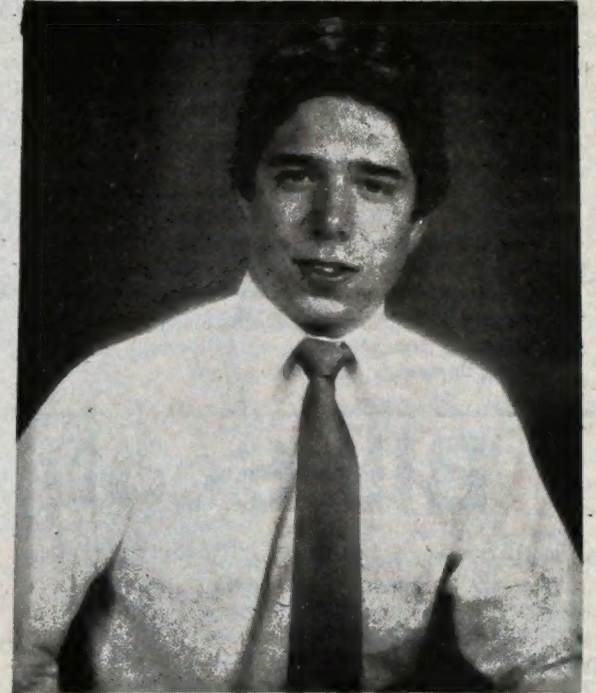

promote this product, yet two years ago the EDC had turned him down.

That, Mr. Speaker, is where I can be very critical, not just of the EDC but of too many of our Government departments. We ignore the entrepreneur who wants to try and who has done a lot for himself. As speakers from this side of the House have pointed out, and apparently we are the only ones talking about this, we have to put some meaning in the Bill for the small businessman. I think it is self-explanatory when three companies received over half of the monies allotted through the EDC. This is why we are trying to bring in some amendments to the Bill which will have some meaning for the community. We are not going to deny our big entrepreneurs, but we want to think of the smaller people who are

striving and working against a market which has been captured by the big financial giants throughout the world. They are getting bigger and bigger all the time. We believe in the small Canadian entrepreneur and we want to promote him also.

Therefore, Mr. Speaker, I hope that before this Bill

passes the House we will have something in it for the individual who wants to help himself, who is out there trying to help himself, fighting big business and big bureaucracy. I hope that when we finish with this Bill we can say we have accomplished something for these people who are very, very important Canadians.

Minden student, Michael Amyotte, 17, has been selected as a member of the Toronto Youth Symphony. Michael a trombonist, received word of his acceptance last week. He auditioned for the orchestra three weeks ago and has studies music since elementary school under music teacher Glen Carter and at HHSS under Rick Vaughan. He has also been receiving tutoring from music teacher Melissa Stephens. Mike, the son of Norma and Larry Amyotte of Minden, is currently in Grade 13 at HHSS and will be attending the University of Western Ontario where he will major in music.

Scott top plough jockey

Ploughboy and local MP, Bill Scott, has shown Liberal Agricultural Minister Eugene Whelan a few things when it comes to furrows...furrows in the field that is and not on the brow.

Scott placed first among nine MPs in the VIP competition at the International Ploughing match being held at Richmond, near Ottawa. Whelan placed eighth in the competition which was held September 27.

Others, in the order of finish, behind the Victoria-Haliburton furrow wizard, were: Maurice Bossy of Kent; John MacDougall of Timiskaming; Victor Althouse of Humbolt-Lake Centre; Charles Mayer of Portage-Marquette; Bill Vankoughnet of Hastings Frontenac; Walter Baker of Nepean-Carlton; Eugene Whelan of Essex Windsor; and Murray Cardiff of Huron Bruce.

Postmaster retires

After 29 years, to the day, as Minden's Postmaster, Don Berry has retired. He stepped down from the post Friday handing over control of the Minden postal facility to Dorothy Rowe.

Don Berry joined the postal service in 1954 after he and his family moved to the Highlands. They had been regular visitors to the area, enjoying a cottage on Gull Lake before deciding to make this their home.

Don took over as postmaster after successfully completing a competition for the post. He replaced acting postmistress Pat Campbell who had been appointed temporarily to the position following the

death of Walter Welch.

When Don assumed the duties of postmaster, the facility was located at the corner of Main Street and South Water Street where the Vasey Insurance and Real Estate offices are located.

The position of postmaster is a pivotal one in the community, Don observed. In a community the size of Minden, it is easy to get to know most of the people. Most of them visit the post office daily or at least once a week. For Don, this opportunity to provide service to the community has brought him the greatest satisfaction.

"Mail is a very personal thing," he commented. "People will lend you their car without giving it a second thought, but if they catch someone reading their mail, they can become very

upset. Handling people's mail can be a very touchy thing."

Don's replacement as postmaster has been with the postal service for 18 years. Dorothy Rowe comes from Minden from Milliken, a postal station near Markham that serves a large industrial area. She expects that her experience in Minden will vary greatly from that at the former post office simply because of the difference in the number and kind of clients being served.

Don is looking ahead to his retirement with anticipation. He enjoys snowmobiling and likes to "get off the beaten path" with his machine. He also enjoys fishing both summer and winter. The Berrys also have a cottage on the Manetawan River near North Bay.

Federation of Ontario Naturalists

(from page 5)

Froom notes in her recent book *Amphibians of Canada*, excessive use of amphibians for research can contribute to the decline of some species.

Yet, the pure research conducted by Dr. Gans in Michigan does have its practical applications. Apparently his methods are being eagerly studied by dentists interested in treating muscle and bone abnormalities of the human mouth. It is also true that the insights and benefits we gain from research into plant and animal communities help to reinforce arguments for the protection of natural areas.

Amateur naturalists needn't despair that future research methods will render their field observation and experience obsolete. The same article in the *New York Times* which reported this research also mistakenly identified the species *Bufo Marinus* as "the common frog". In fact it is a giant toad.

John Eakins

(from page 4)

has apparently been aware of the error in this publication for some time. The City of Hamilton District Health Office has already withdrawn it from distribution and expressed great doubt over the accuracy of the treatment levels prescribed.

The lack of action by the Ministry of Health to notify the public on this very serious matter or to withdraw the publication from general distribution has been questioned. The public who relies on these brochures can experience very serious problems.

The public must be notified immediately and the brochure withdrawn.

September weather

by Phil Graham

Free rent could end

President of the Minden Agricultural Society, Wayne Cox is expected to attend the next meeting of Anson, Hindon and Minden municipal council to discuss his organization's request for rent-free use of the arena during the annual fall fair. The request for the exemption was contained in a letter read to the September 29 meeting of the council.

Deputy Reeve Ed Pergolas said he objected to the

ride" on the arena rental. He said he felt the municipality had donated enough to the organization this year, referring to the township's participation in the construction of new washrooms at the fairground.

Prior to this year, the Agricultural Society had an agreement with the municipality allowing free rental of the arena during the fair. That agreement expired last year.

Councillor Pat Burk asked if there was any reason the township should extend free rental to any group using the township facility. At the moment the

Rotary Club receives free use of the arena for their summer carnival while the Kinsmen Club has free use for their winter carnival.

Pergolas noted that the Agricultural Society was receiving rent from the old curling club, a building the municipality owns.

Reeve Lyle McKnight said he agreed that the rental of the Community Centre (upper floor) for a teen dance was not included in the original agreement and should be paid by the society. But he did not express an opinion on the rental fee for the lower portion of the arena.

Agricultural Society being given what he called "a free

Now Available

Beginning Farmer Assistance Program

A New Ontario Program to Help Farmers Get Started in Their Own Operation

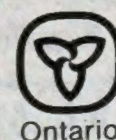

Over the next five years, the Ontario government will be investing up to \$135 million to encourage competent new farmers to enter the farming business.

This will be done — for qualified applicants — by making it easier for beginning farmers to meet the present-day high costs of farm loans.

How the program works:

- The Ontario government will pay a direct cash rebate for 5 years on the amount of loan interest in excess of 8%, up to a maximum of 5 percentage points. This interest rebate will apply on loan amounts up to a limit of \$350,000 per person.
- The loans will be administered by the FCC (Farm Credit Corporation) and other authorized lending institutions including the Bank of Montreal, Canadian Imperial Bank of Commerce and the Toronto Dominion Bank.
- The program applies to qualified loans granted on or after May 10, 1983.
- Applicants must never have been a farmer before (either for a majority of their time or for a majority of their income) and never owned a viable farm, but must have agricultural experience and/or agricultural education.

FULL DETAILS ARE AVAILABLE from local OMAF county offices or from lending institutions.

Ministry of Agriculture and Food
Dennis Timbrell, Minister
William Davis, Premier

Downtown Minden was thrown in chaos earlier this week as road and sidewalk construction combined to make the main street a maze of construction. The road work includes the reconstruction of Newcastle Street, including the intersection with Main. Sidewalk work continues on the west side of the street all this week with work scheduled to start on the east Tuesday.

No revenge for Huntsville

Revenge eluded the Huntsville Blair McCanns in their second exhibition encounter with the Haliburton Huskies during the weekend. The Haliburton hockey team travelled to Huntsville Friday night to give the McCanns an opportunity to avenge an 8-4 loss suffered a week earlier in Haliburton. While the hosts came close to claiming a victory, the strong Huskies team was able to hold the McCanns to a 7-7 tie.

Jeff Stamp opened the scoring for Haliburton halfway through the first period. Three minutes later Huntsville evened the score.

Rob Abbs popped in a goal at 28 seconds of the second period. Then Scott Arbuthnot scored again for the Huskies and less than one minute later Scott Mitchell knocked in

Haliburton's fourth goal.

Huntsville added one more goal to end the second period.

The teams began the third period with an identical score to last week's game with the Huskies ahead 4-2.

but this time it was Huntsville's turn to lead off on a scoring spree as they drove in 4 goals in less than seven minutes.

Not to be outdone by their northern rivals however, the Huskies bounced back with

goals by Tony Scheffee, Drew Bishop and Jeff Stamp.

With less than three minutes left in the game, the Blair McCanns evened the score at 7 all.

Jeff Stamp with a pair of goals and an assist and Drew Bishop with a goal and an assist had another strong game for Haliburton.

Kickers split Fenelon game

The HHSS Redmen soccer teams travelled to Fenelon Falls last Wednesday to take on F.F.S.S.

The junior Redmen were shutout by their hosts 2-0.

The game between the seniors ended in a 3-3 tie. "Scooter" Burgess scored the first goal for Haliburton then scored again, assisted by Chris Laporte.

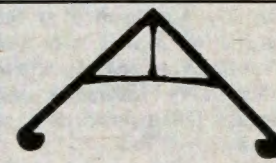

The two outside forwards

teamed up again as Chris Laporte scored the Redmen's final goal with an assist from "Scooter" Burgess.

The senior Redmen team is now tied with Fenelon Falls for first place in the Kawartha West league.

The HHSS teams play their first home game against Lindsay Collegiate today, Wednesday October 5.

An interesting blend

by Michael Shirley

The Agnes Jamieson Gallery is currently showing the works of Bobcaygeon artist Karl Illini.

Over fifty people attended the opening on Thursday night which featured a variety of the artist's paintings and drawings. Many of the people present at the opening commented on the diversity of the artist's work.

Featured in the exhibition are pen and ink drawings, watercolours plus acrylic and oil paintings.

The artist, who was born in France, was raised in Germany and came to Canada in 1953. After spending some time in Toronto he moved to Bobcaygeon where he opened a studio.

His appreciation of nature and the rural environment is evident in the works he is showing at the gallery, a number of which are of local scenes including one entitled simply "Barn Near Minden." (The barn is the one seen from Highway 35 at the corner of Prince Street.)

Illini has won a number of awards and commissions from Canada, Japan, Germany and The United States. Several of these honours recognised his own technique which he calls "Illini Tangential Prismatic". He first applied this unique style to watercolours of the skyline of Toronto. The triangular and rectangular shadings of

colour that criss-cross the painting blended well with the architectural shapes of the downtown area.

After moving north and gaining a new interest in natural settings he found it a challenge to apply his experimental style to the surrounding countryside for, as he points out, "The only straight line in nature is the horizon."

The use of this style on watercolours of river scenes and waterfalls heightens the illusion that the viewer is looking at the painting through a prism with the focus of the watercolours constantly changing.

The artist's love of experimentation shows up again in his pen and ink drawing "Rocks and Trees" in which overlapping lines

create a feathery pattern giving the impression of movement in an otherwise static landscape.

This is not to say that Karl Illini is preoccupied with more radical styles in art. His quietly rendered paintings and drawings of children at play, flowers, forests and old homesteads are in a much more conventional vein and provide a pleasing touchstone for traditionalists.

All of the artist's works, which will be on display at the Minden Cultural Centre until October 31, reveals his fascination and appreciation of the people and country around him.

It is an exhibit worth seeing.

Karl Illini explains tangential prismatic at the opening night of his show at the Agnes Jamieson Gallery in Minden. One of his more popular pieces in the show, the barred owl, can be seen above.

Rosenberg leads PineStone field

Haliburton golfer Ken Rosenberg captured top honours in the PineStone Invitational Golf Tournament Sunday. Ken took the low gross (men's) trophy for the day. Bert McDonald of Minden was the second low gross winner while Bob Nichol claimed the low net prize in the men's division.

Gladys Attman was the ladies low gross winner with Grace Boice of Haliburton claiming low net prize.

Over 100 golfers took part in the one day event, including close to 20 from the Toronto area. The tournament concluded with a steak barbeque.

Festival of Fun

A week earlier at the annual Fall Festival of Fun, held at the Haliburton Highlands Golf Course, Graham Chapman of Oak Ridges won the low gross honours with a score of 73. Bill Lynch of Mississauga claimed the low net prize with a 64.

The tournament and weekend of fun was attended by 48 couples, who gathered Saturday evening for a dinner, dance and elimination draw. The prize in the draw was a painting by Cassandra. Interestingly, after 94 of the 96 tickets had been pulled from the drum, the two remaining belonged to a Thornhill couple, Mr. and Mrs. Tonner.

MAKING HEAT PUMPS FOR OVER 50 YEARS

Looking back

The Canadian Land and Emigration Company was starting to realize some returns on its investments in the early 1870's. Reports of excellent agricultural land and profits from lumbering operations were filtering back to the parent company in England. The following report of the company's annual general meeting is dated April 27, 1871. The meeting was held in The London Tavern.

In presenting their Eighteenth Report to the Shareholders of the Canadian Land and Emigration Company, the Directors have to state, that the payment to the Shareholders recommended at the last Annual Meeting of 2s.6d. per share, amounting to £2,444.7s.6d., has been carried out.

They are happy again to be able to report favourably on the condition and prospects of the Company.

The proceedings taken in accordance with a resolution passed at the last Annual Meeting with regard to the Articles of Association, together with the recommendations of the Committee appointed for the purpose, have been already laid before the Committee appointed for the purpose, have been already laid before the Shareholders. The new Articles of Association which were approved and confirmed at Extraordinary General Meetings held on the 12th and 29th of July last, will, it is anticipated, provide for the more efficient and successful working of the Company.

The Board announce with great satisfaction that, as will be seen from the Balance-sheet, all arrears of calls have now been paid up. Besides this, the former holders of 860 shares which had been forfeited for non-payment of calls have, since the last Annual Meeting, made application to the Board for permission to resume possession of the shares in question, and the Board have, in exercise of their powers, arranged for their doing so, on payment of all arrears.

Lumbering operations have been carried on with great vigour during the past season in the Company's townships, and the high prices obtained by this means for all the produce raised in the district will give, it is hoped, a sensible stimulus to the settlement of the land.

Mr. Boyd (Mossom Boyd (1815-1883) was born in India, came to Canada in 1834, and settled in Bobcaygeon. For a time he was associated with John Langton in the lumber business, then operated his own company. Until the 1870's he was active in the square timber trade with Great Britain but after that period exported mainly sawn lumber to the United States. He bought mills at Bobcaygeon and carried on an extensive lumbering business in the Haliburton

area (operations have been carried on during the past season with great activity, and his payments alone to the Company, during the coming year, are estimated at \$14,000. He has a large farm in Havelock, of which the following account is given by Mr. C. R. Stewart his agent there:

"Your farm in Havelock is now in good working condition. Nearly seventy acres will be under cultivation, and the whole of the buildings are in a thoroughly efficient state. The land cleared proves to be of excellent quality, and the farm is one of the best in the back country. Strangers who have visited it have been both surprised and encouraged by the fine crops raised there last year, and have spread such good reports of the district that we may reasonably expect a fine settlement will be established in the neighbourhood."

A provisional arrangement was entered into with Mr. R. Strickland (Probably Roland C. Strickland of the R. and G. Strickland lumbering company which had large mills at Lakefield) (who visited in England in August last) on terms similar to those of the agreement with Mr. Boyd, in virtue of which he has continued the Burleigh Road to the south boundary of Harcourt, thus giving a new and more advantageous access to the townships. This road will be continued this summer to Kenneway village.

The best little warehouse in Haliburton!!

Both Redmen teams deck FFSS Falcons

It was a perfect day and a perfect setting for a football game as the HHSS Redmen played host to the Fenelon Falls Falcons Friday. The warm sunny weather and full autumn colours seemed to inspire the hometown team as both the senior and junior Redmen won decisive victories over their opponents.

The first game started badly for the senior team when quarterback Greg Pearson suffered torn ligaments that will put him out of action for the rest of the year. His replacement, Terry Allore did a fine job in guiding his team to victory.

In the first quarter of the senior game Jeff Bain opened the scoring for the Redmen by running in from the 6 yard line for the touchdown. Paul Vuksic followed with the conversion. Vuksic continued his strong play by kicking a 25 yard field goal at the beginning of the second quarter. He then intercepted a pass and ran the ball to the Falcon's 20 yard line.

The "Big Red Machine" then marched downfield and Robert McLeod ran straight in for the T.D. Paul Vuksic was good on his second conversion.

Fenelon Falls came close to scoring at the end of the first half after picking up a fumbled ball, but a determined effort by the Redmen defence kept the Falcons off the scoreboard.

Early in the third quarter the red team gained another point on a missed field goal attempt when the Falcons were caught with the ball in their own end.

On the next play the Falcons kick was blocked and Haliburton recovered the ball. Then Paul Vuksic playing in the fullback position, ran in the touchdown and kicked his own conversion. The Redmen added more points on a 35 yard field goal and a wide field goal attempt when the Falcons were trapped behind their goal line again.

The game ended on a typical play with the red team recovering the visitor's fumble.

In commenting on the 29-0 victory, coach Gary Brohman said "It was probably one of the best offensive and defensive performances we've seen in a long time."

Junior win

The younger players continued the Redmen domination of the Falcons

by trouncing the visitors 30-6.

As soon as the Redmen gained possession of the ball they headed for their opponent's goal with a series of running plays then scored on a 40 yard pass play from quarterback Trevor Powers to Paul Allore.

Haliburton showed no mercy as they scored again on a touchdown by Andrew Burke after a 60 yard punt return by Mike McNaull who had a strong two way game.

Powers and Allore combined again to score on a 35 yard pass play.

Just before half-time Ron MacDonald picked off a Falcon's pass and as he was being tackled, he lateraled the ball to Paul Allore who ran in for the T.D.

The third quarter was much more evenly matched as the teams continued their struggle around midfield but in the fourth quarter scored his fourth touchdown of the game on a reverse play from mid-field.

After blocking a Haliburton punt the Falcons scored their only touchdown on the final play of the game.

The players have two weeks to rest up before they take on LCVI in Lindsay.

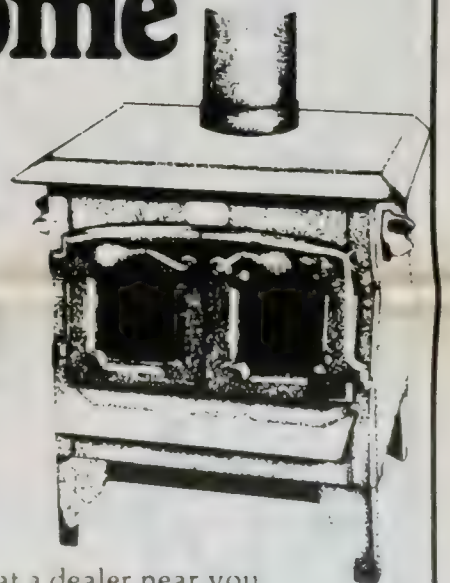

The officials discuss the finer points of the game during a lemonade break.

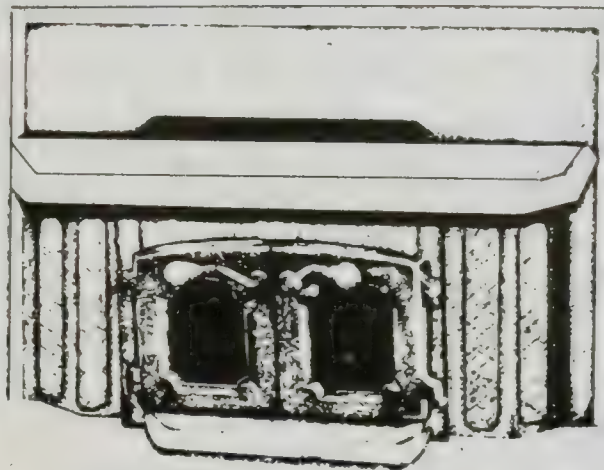

When the Junior Redmen weren't knocking down the Falcons, they were scoring touchdowns in their 30-6 victory at HHSS on Friday afternoon.

Turn your house into a home

Council briefs

Items from the September 29 meeting of Anson, Hindon and Minden municipal council.

121 lights

Residents along Highway 121, just east of the Highway 35 intersection, have again approached council about the possible installation of street lights.

A letter from the Ministry of Transportation and Communication was read at the meeting outlining what would be necessary to add lighting along the build-up area. According to the letter, the cost would be approximately \$15,000, based on estimates obtained in 1980.

It was suggested that the residents of the area assess the interest in the project and whether they would be willing to contribute to the cost of the installation.

Drag races

Permission for ice snowmobile drags to be held, on the road leading into the ball diamond adjacent to the fair ground, has been granted by the council. The request for the activity was prepared by the Haliburton County Snowmobile Association.

The matter was approved, but not before the councillors expressed differing opinions as to whether repeated snowmobile traffic can damage grass growth. Deputy Reeve Ed Pergolas and Councillor Dave Stevens, who operates

a golf course, expressed the feeling that snowmobiles can indeed hurt the growth of grass the following spring. Reeve Lyle McKnight was adamant that no damage is done.

The question was left unresolved and in the end seemed to have little relevance to the situation since the ice drag strip will be located on a road allowance. The request from the HCSA indicated the ice drags would be held in conjunction with the winter carnival and that the car ice racers would not be using the road this year for their track.

Patio move

The council has expressed its approval for a plan proposed by Rockcliffe Tavern owner Dave Willis to move his outdoor patio will be constructed along the rockface and will be separated from the street by a lattice-work barrier.

The council agreed with the move providing the existing patio does not continue to have a licenced status.

Christmas lights

It certainly isn't too early to be thinking about Christmas, especially if you are in the market for outdoor decorative lighting. That was the message brought to the council by councillor Gary Kenney.

However, Deputy Reeve Ed Pergolas wondered if the

municipality had enough funds to cover the purchase of new lights.

Kenney had suggested that \$5000 could be spent on the decorative lighting. Pergolas said there was only a limited amount of funds available, \$1710, for street lighting this year.

The councillor said he would like to see if more funds could not be found for the purchase and suggested the matter to be taken to the BIA for consideration. The council agreed that if the Business Improvement Area wanted to add to the Christmas light fund, municipal money would also be made available.

Parking problems

Agreeing with comments made in a letter in last week's edition of The Times, members of municipal council have indicated that parking restrictions along the Horseshoe Lake Road will be enforced.

Problems with parking were created two weekends ago when the provincial kayak slalom championships were being held at the Horseshoe rapids. Cars parked along the narrow road created problems for those attempting to drive through that area and for pedestrians.

It was suggested that a letter of concern be sent to

the organizers of the events held at the Minden Wild Water Preserve advising them that parking restrictions on the roadway will be enforced in the future.

Several members of council noted that a parking lot had been provided by the municipality, but most people chose to park along the roadway.

Computers

The council would like to get into a data sharing operation even before they purchase a computer for the municipality. In discussing the matter Thursday evening, it was noted the municipality of Dysart et al and possibly the county

administration were considering the purchase of a computer system.

Councillor Gary Kenney suggested they should meet with representatives of the other jurisdictions to share information and perhaps purchase the same equipment and software. It was suggested that by making a joint purchase, possible savings could be realized for all parties. As well, if the computers are similar, the townships could share information more readily as well as have back up machines readily available if one system should break down.

Seatbelt law crackdown

In a directive sent to every OPP detachment, OPP Commissioner James Erskine pointed out that the proper use of seat belts has a direct relationship to the seriousness of injuries received in accidents. He told OPP officers that enforcement of the laws demanding occupants of a vehicle wear seat belts has

great potential for reducing deaths and injuries in traffic accidents.

Under Ontario legislation, the driver of a motor vehicle and any passengers 16 years and over may be charged if they do not use a proper seat belt assembly. The driver is also responsible for making sure that anyone in the vehicle above

the age of two and under 16 years wears the proper restraining devices.

Studies conducted in Ontario have found that the number of people wearing seat belts has declined drastically. After their use was made mandatory in 1976, the usage rate was 76 per cent. More recent studies by Transport Canada have shown that the present rate is about 49 per cent, a reduction of 27 percentage points.

"There are two ways of

getting more people to wear seat belts," said Commissioner Erskine, "they are enforcement and education. The OPP officers on traffic patrol will be increasingly vigilant in laying charges for these infractions."

"The education side of the issue will be addressed by OPP Community Services Officers. The officers will emphasize the use of seat belts whenever they talk to community and school groups through the province."

Did you know?

by Ruth Foster

Did you know that — you have the right to appeal Ontario Taxes? Providing that you follow the guidelines set by the Ministry of Revenue, you have the right to appeal Corporation Tax, Land Transfer Tax, Retail Sales Tax, Motor Fuels Tax, GAINS Payments, Tobacco Tax and Tax Grants for Seniors. In our office we have a booklet on "Your Right to Appeal Ontario Taxes", that explains these guidelines in detail. So, drop-in to our office at the Drag River Municipal Building in Haliburton for further information, or, call us at 457-2733. We are open from Monday to Friday, 10:00 a.m. until 4:00 p.m.

Another interesting note is that on October 6, 1983 Mrs. Christine Dukelow, a Home Economist from the Ministry of Agriculture and Food, will be in Haliburton County conducting two

workshops on "Simple Home Repairs". The first workshop will be held in Haliburton from 9:00 a.m. until 12:00 p.m. and for further information please call, Marie Wallace at 457-2941. The second course will be held in Minden and Mrs. Lyman Cox has all the details concerning this one. Mrs. Cox can be reached at 286-1158.

This course is free and Mrs. Dukelow can accommodate up to 30 people per session. She will also need 5 to 8 volunteers to help her man the stations and says, "they do not have to have had any previous experience." If you would like to volunteer for this, call Marie Wallace at 457-2941. Certainly this will be an interesting and enjoyable course for all.

And remember, you will never know the answer until you ask the question. So drop by or call us sometime and ask!

County Town Museum report

The Minden County Town Museum Committee met last week to make further plans concerning the 1984 opening of the museum. Progress is slow and careful in order that the committee can achieve the best possible museum for Minden.

Finances are, as always, a bit of a problem. Another \$26.00 was turned over to the treasurer from the sale of raffle tickets on the Dr. Agnes Jamieson painting. A gift to the memorial fund was also acknowledged. All donations are gratefully received.

That time that many Mindonites have been awaiting has finally arrived. The museum is ready to accept your artifacts. These should be indigenous to the Minden area, not necessarily antiques, but old enough to tell the story of Minden as it was. An accurate history of the article would, of course, add to its interest, and would also help Laura Kirkwood, who is in charge of accessions, with her records.

Laura will be at the museum to accept your treasures on Thursday,

October 20, and on Thursday, October 27 from 1:00 to 3:00 p.m.

As space is limited, it is possible that all artifacts will not be on display at one time. However, they will be kept in safe storage at the museum until they are put on display. Large items such as pianos, organs, settees, etc. cannot be accepted at this time; perhaps you will keep them until a later date when the museum has expanded.

"A Pinch of the Past", a cookbook which the committee is putting together is slowly becoming a reality. Your recipes are needed! They should be at least 50 years old, and some background as to their origin would add interest. Old time 'doctoring methods' will be included in the book along with 'old wives sayings'. Send your recipes to Aileen Blears, Box 488, Minden, or telephone 286-2351 for pick up.

The next meeting of the Minden County Town Museum Committee will be on Monday, October 17 at 7:30 p.m. at the museum.

1983 Acid Rain lake survey

The following is a list of lakes in Haliburton County prepared by the Ministry of Environment, with numbers indicating the impact acid rain is having on the bodies of water. This is the third annual acid sensitivity survey of lakes in Ontario carried out by the MOE.

The primary factor in determining the sensitivity of a lake to acidification is its alkalinity, a measure of its natural, acid-neutralizing capacity. Lakes vary considerably in their capability to neutralize acid loadings, with those in alkaline soil or limestone deposits having greater capability to neutralize acidic precipitation. The heaviest loadings occur during the "spring run-off" or snow-melt period. In south-central Ontario, loadings from the atmosphere are several times greater than in remote areas of the province; therefore, such regions as Muskoka / Haliburton / Parry Sound and Algonquin Park lakes, as well as lakes in parts of the Manitoulin and Timiskaming districts, are more likely to incur decreases in alkalinity and pH as a consequence. Studies have shown acidification of lakes results in changes or decreases in phytoplankton, zooplankton and fish species.

Level 1 lakes have zero or negative alkalinity; they have already become acidified. Many fish species may be absent from such lakes, which may be without fish altogether. Level 1 lakes not naturally high in organic colour, such as beaver ponds, are exceptionally clear. Clouds of algae may accumulate in inshore areas. Clam, snail and many amphibian species are also absent.

Level 2 lakes have very low alkalinity and are extremely sensitive to heavy acid loadings. Fish kills and other biological damage may occur during spring run-off.

Level 3 lakes are moderately sensitive to heavy acid loadings. Fish and other biota are generally less at risk in comparison to level 2 lakes.

Level 4 lakes are of low sensitivity and likely to experience biological damage only under extreme snow-melt conditions during spring run-off.

Level 5 lakes are not sensitive to acid loadings and are capable of withstanding heavy acid loadings during spring run-off without biological damage. Such lakes contain sufficient buffering capacity to neutralize acid rain for an indefinite period of time.

NOTICE

IN THE MATTER OF the Municipal Act; and IN THE MATTER OF a proposed By-law of the Corporation of the Townships of Anson, Hindon and Minden to stop up, close and convey to the adjoining landowner part of the 66 foot 'unopened' Original Shoreline (Marine) Allowance for Road around the shoreline perimeter of Canning Lake in front of Lot 15, Concession 2 in the Township of Minden.

NOTICE IS HEREBY GIVEN pursuant to Section 301 (1) of the Municipal Act R.S.O. 1980, as amended, that the Council of the Corporation of the Townships of Anson, Hindon and Minden at its regular meeting to be held in the Municipal Council Chambers, Milne Street, Minden on Thursday, October 27th, 1983 proposes to consider and, if deemed advisable to pass a By-law to stop up, close and convey the above-noted portion of road allowance more particularly described as follows:-

ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Township of Minden, in the County of Haliburton and being composed of part of the original allowance for road along the shore of Canning Lake in front of Lot 15, Concession 2 in the said Township of Minden, as outlined in red on plan of survey prepared by Paul Wilson, O.L.S., dated February 8, 1982.

AND FURTHER TAKE NOTICE that before passing said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Counsel, Solicitor or Agent any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at MINDEN this 5th day of October, 1983.

senior league

by Bert Harrison

Mary Oliver had a birthday and she is ninety four. They had open house at her house near Halls Lake shore, where you could go to wish her well, have a cup of tea, lovely birthday cake and talk of the good old times they had near the shores of Halls Lake. There was more to come here at Hyland Crest Monday, September 26, she had her daughter and son-in law as luncheon guests. With birthday cake and all good wishes she was surely blest.

At chapel service Sunday night, not only too many there, some were sick and laid aside. Rev. Burgess gave a real interesting talk, First Corinthians two. "For I am determined brethren not to know anything among you save Christ and him crucified." We are happy to hear that Rev. Amos Brubacher who had undergone a serious operation, is convalescing at his home.

Monday morning at fun and fitness bless her little heart, Ada Shorter won the throwing of the darts. We were happy to have Rev. John James, of Haliburton United Church, take the service in the chapel this Tuesday. Agnes Taylor didn't come the music to play. So Doris came and led the singing and did the job O.K.

The colour on the hills is getting brighter every day. We can see God's handiwork now on display.

Congratulations to Mr. and Mrs. Andrew Sharpless (Nee Nelda Draper) on their recent marriage and we look forward when you will return Nelda and be back with us again.

Fred Ballard came on Tuesday night and played the organ fine, we can count on Fred for music most anytime. The movies we didn't see Monday night on account of the pot luck dinner, we viewed them Tuesday afternoon with all three a winner.

Wednesday afternoon Doris took a bus load of residents from Hyland Crest to see the colour up Huntsville way where it would be the best. They said they had a lovely drive and the colour was real nice, they were glad they had taken Doris's advice.

Our girls seem to keep everyone busy about this

and that, they have the men working as well as the ladies on ceramics, now what do you know about that?

The ladies from Minden Catholic Church brought in a tasty lunch on Thursday, while some were serving it Toos Reid and Rose Barry fine music they did play. They played and sang so lovely we were well entertained, we hope, some day they will come to visit us again.

Members of the Kinsmen Club, Deacon and Crowe, called the Bingo numbers Thursday night, put on a real good show. All the players seemed content some had real good luck, others didn't win a cent. The following was composed and recited by Mary Oliver.

To all my friends at Hyland Crest, thanks for wishing me the best. For prayers, cards and love to me, it helped to my recovery, and as I lay upon my bed, thoughts of you went through my head. I wondered how the meeting went, did you have a new resident? It's nice to see you all again looking very much the same. God bless the nurses for their care, and all the good friends everywhere. So thanks again for being blest with my good friends at Hyland Crest.

We are glad to have Mrs. Grace Coburn our Sing Song leader back with us again this Friday, in the absence of Mrs. Baron we welcomed Mrs. Cox to play. Then someone did say "tell us about the time you had when you were away." She told us then how she and Lorne motored to Winnipeg to attend the hundredth anniversary of the church she belonged to, away back when. They were wine and dined and taken out for dinner, she could tell us a lot more, she said this was just the beginning.

We have a new resident come to live at Hyland Crest, Mrs. Ena Dart from Haliburton, we hope she will like it here, we're sure she will fare the best.

Dear readers, by the time you get our next Senior League letter Thanksgiving will be o'er and we have so much to be thankful for, especially we elderly folk here at Hyland Crest, for shelter, food, and nursing care we are truly blest.

Members of the Minden Kinette and Kinsmen Club have been entertaining seniors at Hyland Crest with a weekly game of bingo for a long time. Recently members of the Kinette Club donated a new set of bingo cards and markers for the players. Two members of the club look on as residents prepare to play their first game with the new equipment.

CORPORATION OF THE TOWNSHIP OF STANHOPE

PUBLIC NOTICE

TAKE NOTICE that the Council of the Municipal Corporation of the Township of Stanhope proposes to enact a By-Law to stop up, close and sell that part of the original allowance for road set out and described as follows:

FIRSTLY: All and Singular that certain parcel or tract of land and premises situate, lying and being in the Township of Stanhope in the County of Haliburton and being composed of part of the original allowance for Road between Lots 15 and 16 Concession 1 and being more particularly described as Part 1 on a Plan deposited in the Registry Office for the Registry Division of the County of Haliburton as Plan 19R 2882. A copy of the plan of Survey as noted may be viewed at the Township of Stanhope Municipal Office during normal working hours.

The proposed By-Law will come before the said Council for consideration at its regular meeting at the Municipal Office, in the Township of Stanhope on the 2nd day of November, 1983, at the hour of 11:30 a.m. and at that time, the Council will hear any person or by his council, Solicitor or agent, any person who claims that his land will be prejudicially affected and who applied to be heard.

DATED: September 23, 1983.

Gerald C. Bain, A.M.C.T.

Minden W.I.

A small group of Minden Women's Institute members met at the Library Cultural Centre on September 21st with Mrs. L. Cox, president, in the chair. The Roll Call of antiques and their history proved very interesting. We had an excellent report of a summer Bake Sale and Mrs. Cox thanked those who helped whether with goods or donations.

Twenty-six cards had been sent since last meeting and collections for this Fund and Pennies for Friendship were taken. A friendly card was passed around to sign for Mrs. Moore who is presently in hospital.

Plans were made for the Home Repairs Workshop at this same place October 6 from 2 - 5 with those interested to contact Mrs. Cox.

Our usual donation of \$30 will go to Archie Stouffer

Public School after this meeting.

Mrs. C. Wilson Conventor, then gave a very rewarding paper on Cultural Affairs regarding W. I. Members. She mentioned music, language, art, book reports, musical instruments as learning experiences. We may need changes in our culture in this country and we should broaden our outlook and get new ideas from new members. Everyone was appreciative of this and too bad so few were there to hear it. Mrs. A. Coulter gave a lively short reading.

The meeting adjourned and all enjoyed the delicious lunch and a chat. Next meeting will be October 19 at the Library Cultural Common Room with all ladies welcome.

around the county town

by Yvonne Guida

Thomas Chandler Haliburton, for whom this county is named, was a renowned writer of at least 20 volumes. The hero being Sam Slick, the Yankee Clockmaker. Here are some of the sayings attributed to Sam Slick. "You are as sharp as a needle - If you think to run a rig on me, you have barked up the wrong tree - He flies off the handle for nothing - If a bear comes after you, Sam, you must be up and doing or it's a gone goose for you - The early bird gets the worm - He goes like a bullet out of a rifle when its dander is up - A college education shows how devilish little other people know - A nod is as good as a wink to a blind horse - The moments a man takes to a pipe he becomes a philosopher; it is the poor man's friend; it calms the mind, soothes the temper and makes a man patient under trouble - Every dog has his day in the world - He drank like a fish - As quick as a wink - As large as life and twice as natural - If a man seems bent on cheating himself, I like to be neighbourly and held him do it - Real genuine skinflint - Six of one, half a dozen of the other."

From Hyland Crest Senior Citizen's Home, a very happy birthday and best wishes to Tryphina Jenkins, Ada Shorter, Berta Dawson and Angus Coulter who celebrate their birthdays in October. Many happy returns to you all.

Don Berry who is retiring from the Post Office in Minden after many years, was pleasantly surprised last Saturday, September 24, by a lovely party at the Fireside in his honour. Seventeen people showed up to wish him well, including Ethel Leigh who was also at the Post Office for many years, Gordon and Mabel Deacon, Les Prentice and his wife Nina from Lindsay, Les was also with the Post Office for many years, Lloyd Johnson who is currently with the Post Office and his wife Helen and others. They enjoyed a lovely dinner, after which Lloyd gave a speech of appreciation to Don for his services and a very fine spinning reel was presented to him. A great evening was had by all and we also extend our good wishes to Don.

I think it is nice to keep up with people who were born and grew up in Minden, even though they have moved away. Gerald Welch for example. Gerald is the son of Edith Welch of Hyland Crest. He and his wife Jean were visitors of

Doreen James recently while visiting his mother and his aunt, Carrie Jones. Gerald left Minden at the age of 17 to work for Niagara Wire Weaving Co., Niagara Falls, Ontario. Later he joined the army and was overseas four and a half years. He served with the 8th Light Ack Ack Regiment, but was later posted to the 36th Field Regiment out of Cobourg, Ontario. He served in France, Germany and Holland. On his return he went back to work with Niagara Wire weaving Company. He was transferred to Warrenton, Virginia and later to Quincy, Florida where he still lives and works for Niagara Wires. He is now in his 43rd year with the company which certainly says a lot for his ability. Lots of luck Gerald, it's nice to hear you are doing so well.

The Thrift shop at St. Paul's will be open this Friday from 1:30 to 4:30 p.m. The Thrift shop is doing very well which is nice to know.

There will be a meeting on October 12 for the U.C.W. rally at Lochlin. Registration will be at 9:30 a.m.

Please keep in mind the Country Christmas Bazaar, bake sale and luncheon at St. Paul's on November 25. Raffle tickets will be sold on a knitted afghan (first prize) 2 embroidered pillowcases (second prize) and a knitted cushion (third prize). Tickets on these lovely things are 50¢ or three for one dollar. Luncheon will be \$5.00 for adults and \$2.50 for children.

The annual Turkey dinner will be held on Saturday, October 29 at St. Paul's. There will be two sittings, one at 5 p.m. and one at 6 p.m. Tickets for adults are \$6.00 and \$3 for children. Everyone is welcome to partake of this delicious feast.

The Karl Illini exhibit at the Agnes Jamieson Gallery seems to be a great success. He has some beautiful paintings on display so do try to take advantage of the show. Hours are daily from 10 a.m. to 5 p.m. and 1 p.m. to 5 p.m. Saturdays.

Don't forget the Lutterworth Estate's Annual Fall dinner at the Wagon Wheel on Wednesday October 12. Delicious dinner and a lot of fun. Members \$7.00 and non-members \$11.00. Come out for a great evening.

Winners at the mini-card party last Thursday afternoon at the Parish Hall included for cribbage Joyce Hewitt and Lil Porter and for Euchre, lone hands Alice

Sedgewick and May Eldridge and Muriel Proctor.

Friends of Mark Vasey are happy to see him able to be out once again and just in time too, as he and Carrie were entertained by their family in Toronto over the weekend in honour of their fiftieth wedding anniversary.

Hilda and Mac McCarey have returned from a visit to their daughter in Binghampton, N.Y. During their visit, they attended services at Trinity Episcopal Church where they met the organist, Peter Browne. Mr. Browne's father was a former rector of St. Paul's Anglican Parish here in Minden. Isn't it a small world?

Florence and Phil Robinson spent the weekend in Toronto with their son Bradley. Phil and Bradley attended the hockey game between the Montreal Canadiens and the Toronto Maple Leafs.

Friends who remember Mr. Waldron Clement when he and his wife lived in Minden several years ago, will be pleased to learn that he is now residing on the North Road with Mr. and Mrs. Clarence Ainsworth.

I am not moving until October 17, so please continue to call me at my current number.

kid's korner

by Jean Lacey

Hi kids!
Here is another puzzle for you. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters.

It's as easy as that. Have fun.

Q: What would you do if your dog was eating your book?

A: Take the words right out of his mouth.

Q: Why couldn't the pony talk?

A: He was a little horse.

Q: Why is it hard to talk with a goat around?

A: Because he always butts in.

Q: When is a bump on the head like a hat?

A: When it is felt.

Q: What American has had the largest family?

A: George Washington. He was called the Father of his country.

Reminiscing

The ship Princess Acadia, cut cleanly through the waters of the Bay of Fundy, I stood at the prow on the upper deck With the wind whistling through my hair Cold, but free.
Reminiscing.
There was so much to remember, * Wolfe and Montcalm, at the Plains of Abraham, They almost died together for their own cause. England and France, what a waste of youth Indians and Champlain And his driven aim. Evangeline and the Acadians, The terrible tragedies that they endured But their history has been assured Never to be forgotten. Lunenburg and its stout fishermen Its great fleet. Peggy's Cove, named for a girl who strove In a shipwreck she was bold And lived to tell the story. The ship went down in a blaze of glory Like the ship that almost obliterated Halifax. When it blew up amid the cove By a seaman who for liberty strove, It takes so long to tell the story Of all our history and our great glory, We have our sights On achievements yet to be With the help of God, we all may see.

Yvonne

NOTICE

IN THE MATTER OF the Municipal Act; and IN THE MATTER OF a proposed By-law of the Corporation of the Townships of Anson, Hindon and Minden to stop up, close and convey to the adjoining landowner part of the 66 foot 'unopened' Original Shoreline (Marine) Allowance for Road around the shoreline perimeter of Brady Lake in front of Lot 3, Concession 4 in the Township of Hindon.

NOTICE IS HEREBY GIVEN pursuant to Section 301 (1) of the Municipal Act R.S.O. 1980, as amended, that the Council of the Corporation of the Townships of Anson, Hindon and Minden at its regular meeting to be held in the Municipal Council Chambers, Milne Street, Minden on Thursday, October 27th, 1983 proposes to consider and, if deemed advisable to pass a By-law to stop up, close and convey the above-noted portion of road allowance more particularly described as follows:-

ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Township of Hindon, in the County of Haliburton and being composed of part of the original allowance for road along the shore of Brady Lake in front of Lot 3, Concession 4 in the said township of Hindon more particularly shown as outlined in red on a plan of survey dated January 18, 1952.

AND FURTHER TAKE NOTICE that before passing said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Counsel, Solicitor or Agent any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at MINDEN this 5th day of October, 1983.

(Mrs.) Ellnor Burke, A.M.C.T.,
Clerk-Treasurer,
Townships of Anson, Hindon & Minden
Box 98, Minden, Ontario. KOM 2K0.
Phone (705) 286-1260

The plan of survey referred to herein is available for perusal at the Municipal Offices during normal office hours.

The Agnes Jamieson Gallery

Once again our gallery is alive with vibrant colour and beautiful pen and ink drawings - the work of Karl Illini.

"Boy on a Swing" is a drawing that took over 700 hours to do and when you look at it or any of the drawings, get close enough to see the very fine fine dots and lines that make the drawings come to life.

Karl's work will be at the gallery until October 30th, so do plan a visit.

Hours 10 a.m. to 5 p.m.
till October 8th
Winter hours
will be announced.
